CONTROL COMPONENTS:

Diversity Policy (2026)

Control Components (CCPL) is an equal opportunity employer that is committed to diversity. In the development of our policies we commit to foster ways of working that will not hinder diversity.

It is our belief that a diverse CCPL workforce helps to ensure effective customer service to our customers, delivering us a critical competitive advantage in the marketplace.

We will look to recognise and support employees' individual strengths, to cultivate each employee and help them achieve their full potential. We aim to embrace unique talents and contributions from each of our staff.

As part of our diversity policy we hereby state that we believe every team member is entitled to work in a safe, enjoyable and fair environment, regardless of their age, education, gender, intellectual/physical ability, primary language, race & culture, religion, sexual orientation, physical appearance or socio-economic background.

When seeking new employees, we will always welcome job applications from a wide range of candidates. The awarding of individual performance entitlements will always be based purely on merit.
